

LIST OF ANALYTICAL MAPS AND GRAPHICS

- [Figure 1](#) Key Developments in the History of County Payments
- [Figure 2](#) How Are Federal Lands Payments Distributed Today?
- [Figure 3](#) How Important Are Federal Land Payments?
- [Figure 4](#) How Will Payments Change if SRS Expires and Counties Receive Revenue Sharing Payments (25% Fund and O&C 50% Payments)?
- [Figure 5](#) The Value of Ecosystem Services Produced by Stewardship Contracts and Forest Legacy Roads and Trails Spending in FY 2009
- [Figure 6](#) How Will Forest Service Payments Change if SRS Expires and the 25% Fund is Reformed to Include the Value of Activities that Produce Ecosystem Service Products?
- [Figure 7](#) How Will Forest Service Payments Change if SRS Expires and the 25% Fund is Reformed to Include the Value of Ecosystem Service Products?
- [Figure 8](#) Counties Ranked by Economic Performance
- [Figure 9](#) County Economic Performance and Timber Dependency
- [Figure 10](#) SRS Title II Payments Compared to County Economic Performance
- [Figure 11](#) How Will SRS Payments Change if the SRS Formula Adjusts for Economic Performance?
- [Figure 12](#) How Will SRS Payments Change if the SRS Formula Adjusts for Ecosystem Service Values?
- [Figure 13](#) Where Are Protected Federal Public Lands?
- [Figure 14](#) Where Are Federal Public Lands That Have Potential to Gain Protected Status?
- [Figure 15](#) Economic Value of Forest Health Produced by Forest Stewardship and Restoration in FY 2009: Wildfire Risk Mitigation and Noxious Weed Control
- [Figure 16](#) Economic Value of Recreation Produced by Forest Stewardship and Restoration in FY 2009: Forest Road and Trail Construction and Maintenance
- [Figure 17](#) Economic Value of Watershed Health Produced by Forest Stewardship and Restoration in FY 2009: Riparian Restoration, Erosion Control, and Watershed Improvements
- [Figure 18](#) Economic Value of Carbon Sequestration Produced by Forest Stewardship and Restoration in FY 2009: Reforestation and Decommissioning Logging Roads
