BACKGROUND

The Santa Rosa-San Jacinto Mountains National Monument contains 177,000 acres of federal land and was created in 2000 to protect the biological, cultural, and recreational values of this beautiful area that combines a desert floor with stark, abrupt mountain ranges. Located in Riverside County, California the monument is managed by the Bureau of Land Management and U.S. Forest Service.

PUBLIC ACCESS AND USE OF THE MONUMENT

The national monument protects hunting, fishing, rights-of-way, overflights, and access to inholdings. Camping, hiking, mountain biking, and wildlife viewing are some of the major activities at Santa Rosa-San Jacinto Mountains, and each year the monument attracts thousands of visitors to this unique area.

TRAVEL AND TOURISM

Travel and tourism are important to Riverside County, representing about 22% of total private wage and salary employment, or 120,825 jobs, in 2015.

In California, the Outdoor Industry Association reports that recreation contributes more than \$85 billion annually to the state's economy.⁶

SUMMARY FINDINGS

Research shows that conserving public lands like the Santa Rosa-San Jacinto Mountains National Monument helps to safeguard and highlight amenities that draw new residents, tourists, and businesses to surrounding communities.¹

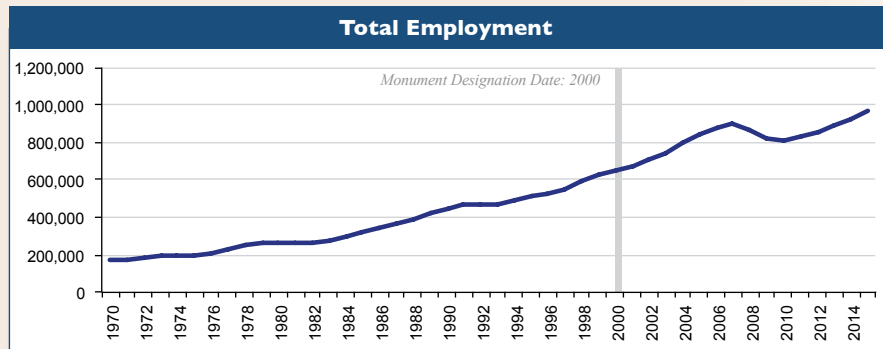

Western counties with protected public lands, like national monuments, have been more successful at attracting fast-growing economic sectors and as a result grow more quickly, on average, than counties without protected public lands.² In addition, protected natural amenities—such as the pristine scenery found at Santa Rosa-San Jacinto—also help sustain property values and attract new investment.³

ECONOMY GROWS AFTER DESIGNATION

The communities in Riverside County, California neighboring the Santa Rosa-San Jacinto Mountains National Monument experienced strong growth after its designation, continuing previous growth trends.

From 2001 to 2015, in Riverside County:⁴

- Population grew by 46%
- Real personal income grew by 54%
- Jobs grew by 45%
- Real per capita income grew by 5%

SERVICES JOBS INCREASING ACROSS THE BOARD

Services jobs—such as doctors, engineers, and teachers—account for the majority of employment growth in Riverside County, California in recent decades. These jobs are increasingly mobile, and many entrepreneurs locate their businesses in areas with a high quality of life.

From 2001 to 2015, in Riverside County:⁵

- Services grew from 421,859 to 698,782 jobs, a 66% increase
- Non-Services shrank from 146,207 to 141,667 jobs, a 3% decrease

THE COMMUNITIES IN RIVERSIDE COUNTY NEIGHBORING THE NATIONAL MONUMENT EXPERIENCED STRONG GROWTH SINCE ITS DESIGNATION IN 2000.

THE INCREASES IN POPULATION, JOBS, PERSONAL INCOME, AND PER CAPITA INCOME ALSO MIRROR OTHER WESTERN COUNTIES WITH NATIONAL MONUMENTS OR OTHER PROTECTED LANDS.

METHODOLOGY

This fact sheet is part of a series that assesses the economic performance of local communities that are adjacent to national monuments. The series examines national monuments in the eleven western continental states that are larger than 10,000 acres and were created in 1982 or later.

Series: [The Economic Importance of National Monuments to Local Communities](#)

NON-LABOR INCOME GROWS FASTEST

One of the largest and fastest growing sources of new personal income in Riverside County, California is non-labor income, which is made up of investment income such as dividends, interest and rent, and government transfer payments such as Social Security and Medicare.

For people with investment income and many retirees, protected public lands and recreation provide important aspects of a high quality of life. Non-labor income already represents more than a third of all personal income in the West—and will grow as the Baby Boomer generation retires.⁷

From 2001 to 2015, in Riverside County:

- Non-Labor income grew from \$18.6 billion to \$30.7 billion, a 65% increase
- As a result, in 2008 non-labor income made up 36% of total personal income

TRADITIONAL JOBS HOLD STEADY

Long before the monument's creation, commodity industries (agriculture, mining, timber) in Riverside County were small relative to the overall economy. These industries remain part of the county's economy today.

In 2015, in Riverside County:

- Agriculture accounted for 1% of total employment
- Mining accounted for 0.1% of total private employment
- Timber accounted for 0.5% of total private employment

PROSPERITY ON THE RISE

As the economy has grown since designation of the Santa Rosa-San Jacinto Mountains National Monument, per capita income has risen as well. This indicates growing prosperity in the region.

From 2001 to 2015, in Riverside County:

- Real per capita income grew modestly from \$34,208 to \$36,051, a 5% increase
