Six SocioEconomic Profiles

Selected Pages

Rio Arriba NM, Los Alamos NM, Sandoval NM, San Miguel NM, Santa Fe NM, and Mora NM

Produced by the
Economic Profile System (EPS)
March 24, 2007

- The population has gotten older since 1990. The median age in 2000 is 39.6 years, up from 33.8 years in 1990.

- The largest age category is 15 to 19 years old (488 people or 9.4% of the total).

- Total Population in 2000 was 5,180 people, up 21% from 4,264 in 1990.

- The age group that has grown the fastest, as a share of total, is 45 to 49 years, up 193 people. Their share of total rose by 2.8%

2000 Table SF1 - P12 & 1990 SF1 Table P05 & P12

In the graphs below, changes in population by age are shown two ways. The "Change in Population" graph illustrates how each age bracket has changed in the last 10 years. The "Change in Share" graph illustrates how each category has changed as a share of total. Note that an age bracket can have an increase in population while declining as a share of total. The "Change in Share" graph usually demonstrates how the baby boom has caused a demographic shift in the population (growth in the 40-60 age brackets).

Note: In aggregated profiles, medians are interpolated.

2000 Table SF1 - P12 & 1990 SF1 Table P05 & P12

In the graphs below, changes in population by age are shown two ways. The "Change in Population" graph illustrates how each age bracket has changed in the last 10 years. The "Change in Share" graph illustrates how each category has changed as a share of total. Note that an age bracket can have an increase in population while declining as a share of total. The "Change in Share" graph usually demonstrates how the baby boom has caused a demographic shift in the population (growth in the 40-60 age brackets).

Note: In aggregated profiles, medians are interpolated.
